UNRIVALLED REST QUALITY

Only those who draw strength from resting can make their big dreams come true. That's why we've developed the technology to harmonise your night and your day, guaranteeing you optimum recuperation whilst you sleep. Dream big with Philrouge dream technology.

For over 70 years, this dream technology has been at the heart of what we do as a specialist in sleep systems. Physiological measurements are combined with your rest type and the appropriate sleeping components to ultimately create your personal sleep system. This provides you with the foundation to realise your big dreams.

THE PERFECT BALANCE

Personal sleeping comfort is achieved through the perfectly co-ordinated combination of spring suspension and mattress. The myriad adjustment options and the point-elastic pocket spring core mattress ensure that the lumbar vertebrae are gently supported, while the shoulders and buttocks are noticeably relieved of pressure.

Quality workmanship.

- Metal springs sewn into fabric pockets covered by multiple layers of upholstery.
- Use of thermally-hardened springs.
- Bed frame covered with non-woven material to protect from dust.
- Sturdy plywood and MDF base.
- Durable double lap-felled seams.
- Padded sitting edge.
- Anti-slip surface prevents mattress from sliding.

Personalisation.

- Modular design.
- Large choice of cover fabrics.
- Scandinavian and Western European sleep system.
- Individual design choices thanks to option of using customer's own fabrics.

THE EOS PRINCIPLE

Authentic box-spring comfort requires the perfect combination of several components. From the box to the mattress to the right neck pillow. Eos offers you all of this, and much more besides. You can choose between the Scandinavian version with an upholstery-covered mattress and a topper or the Western European version which has a classic mattress cover and no topper. This allows you to adapt the design to your personal comfort requirements and tastes.

SCANDINAVIAN

Upholstery-covered mattresses with topper.

WESTERN EUROPEAN

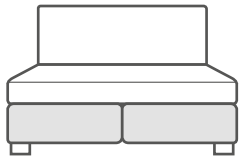

Mattresses with classic mattress cover and no topper.

MAXIMUM INDIVIDUALITY

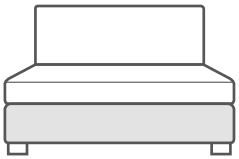

To be able to accommodate your individual requirements, there’s a wide range of combination options for you to choose from. Configure your very own box-spring sleep system and experience the combination of timeless design and restful sleep.

Topper, one-piece.

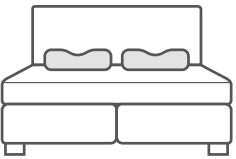

Legs.

Complementary furniture.

Neck pillows.

B O X

The box, which has been carefully, manufactured by hand, provides a solid base for many years of box-spring sleeping comfort. This is ensured by the large number of fabric pockets which feature sewn-in metal springs made from hardened, fatigue-proof steel. These are housed in a solid frame construction. The box is available in versions with fixed upholstery or a removable slipcover.

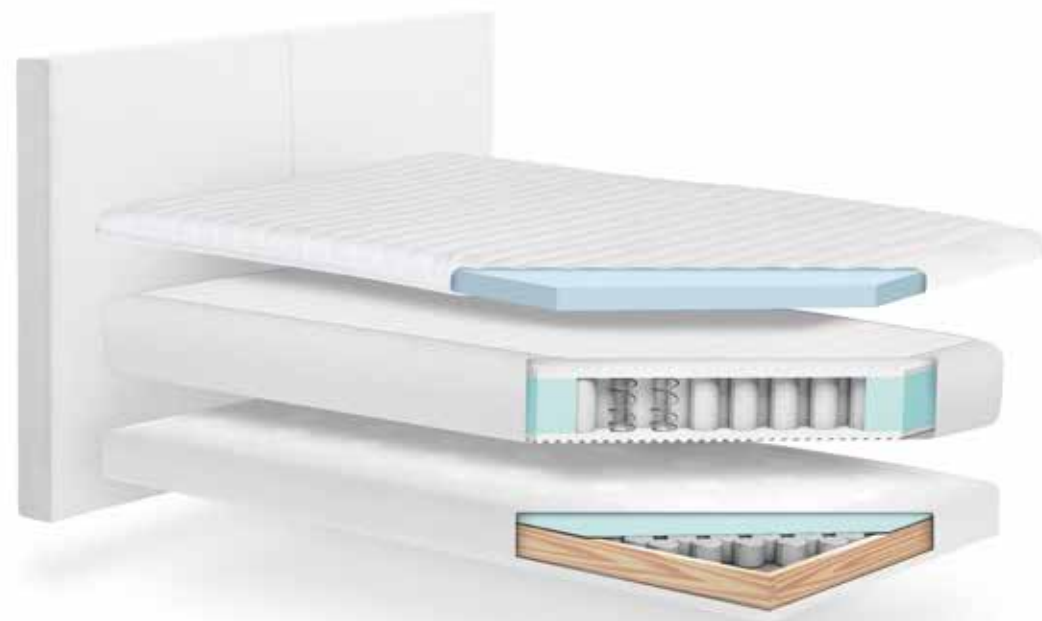

Box with fixed upholstery.

Box with removable slipcover.

BOX SLIM

Thanks to its compact bed frame with the innovative micro pocket spring core technology, the Box Slim combines an elegant appearance with the typical box-spring construction without compromising on the unique box-spring lying comfort. The low construction height of the box is particularly suited to smaller rooms.

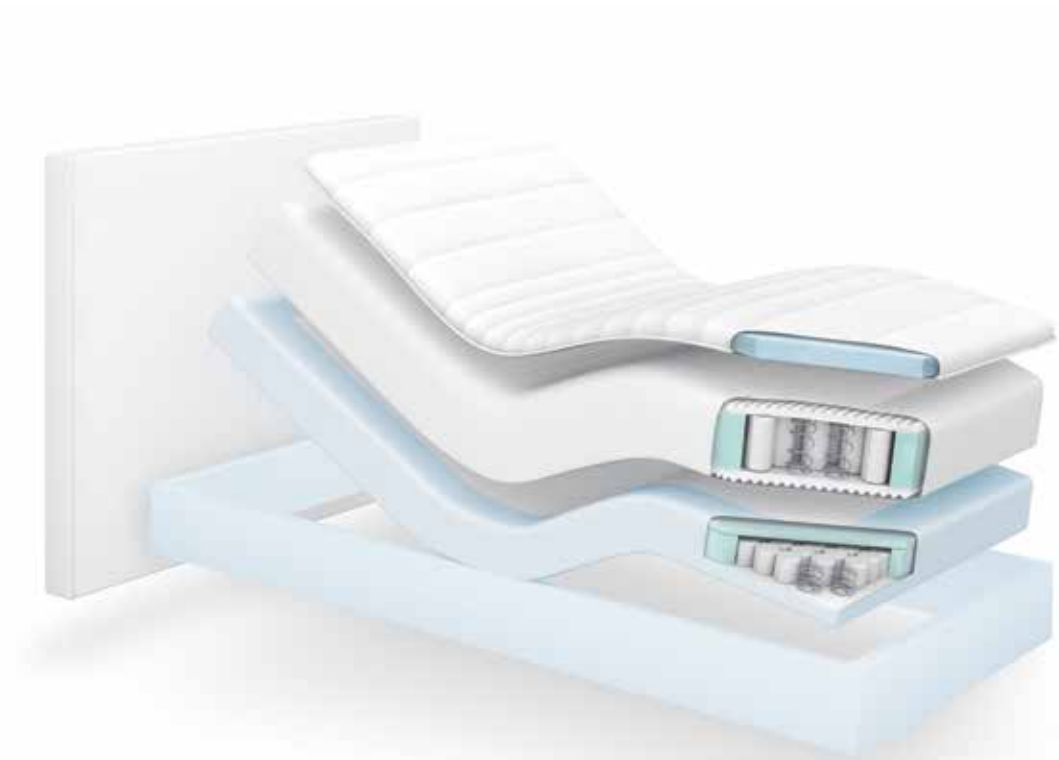

Thanks to the innovative micro pocket springs, the unique box-spring lying comfort can be combined with elegant design.

BOX 2 M

The box-spring bed, which is equipped with two motors, can be effortlessly adjusted at the touch of a button. You can easily set your favoured resting position by adjusting the back and foot sections. This means that nothing will stand in the way of your personal sleeping comfort.

Double bed with option of synchronised adjustment.

BOX ERGO

The first 100%-adjustable box-spring. With the adjustable shoulder and buttock zones, the box-spring now also allows sleeping comfort to be individually customised.

THE PERFECT SETTING

Both adjustable zones can be raised by up to ten centimetres. This allows for perfect ergonomic adaptation. The lumbar vertebrae are gently supported and pressure on the shoulders is noticeably reduced.

BOX ERGO

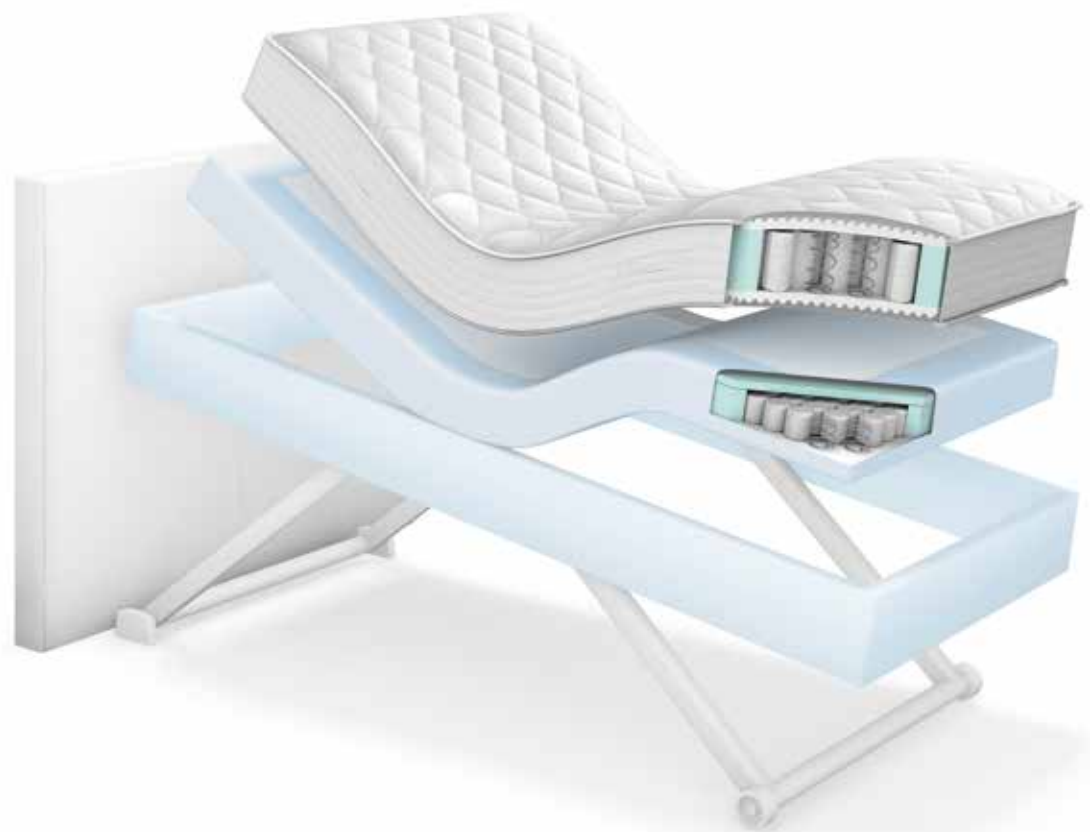

Further benefits.

- The buttock and shoulder zones, which can be lowered by up to seven centimetres from the neutral point, allow for millimetre-precise adjustment and relief from strain.
- Both zones can also be raised by up to three centimetres for specific support in the buttock area or when lying on one's back, for example.
- Thanks to the adjustable buttock and shoulder zones, the lumbar vertebrae receive gentle support.
- The buttock and shoulder zones can be easily modified by remote control and read directly from the display. All settings can be saved.
- Recommended in combination with the Souplesse 18 and 22 pocket spring core mattresses, which are available in four firmness levels and with zone support.
- The adjustment options mean that various ailments such as back, neck, hip and knee problems can be catered for. Settings are incremental and millimetre-precise.

BOX RELAX

The first 100%-adaptable box-spring. Thanks to the multiple-motor technology, the box-spring bed now also provides a variety of relaxation functions.

PERFECT HEIGHT

With a lying surface that can be adjusted in height by up to eighty centimetres, the Eos Relax is also suitable for assisted living and home care.

BOX RELAX

Further benefits.

- Bed frame without mattress can be adjusted in height by up to 80 cm, allowing you to set the perfect height for care-dependent individuals.
- The bed is fitted with castors which allow it to be moved in any direction.
- Can be combined with the Manhattan and Brooklyn slim headboards using the wall fitting.
- Includes foot bar and under-bed lighting.
- Can be fitted with an infusion holder and trapeze bar including triangular handle and safety rail.
- The Relax is designed for private-sector home care and complies with the requirements of EN 60601-1-52 for care and medical beds and complies with EU directive 93/42 EEC.
- Recommended in combination with the Souplesse 18 and 22 pocket spring core mattresses, which are available in four firmness levels and with zone support.
- Easy to use thanks to the integrated, handheld controller.
- The versatile adaptation options mean that various ailments, such as back, neck, hip and knee problems, as well as asthma, reflux, heart or even circulatory problems, can be catered for.

UPHOLSTERED BED

With the upholstered bed you can have a bed in the authentic box-spring style. To complete your desired perfect look, you can select from all Eos headboards, upholstery covers and other customisation options. The upholstered bed is fitted with a removable slipcover and is compatible with all Philrouge sleep systems.

HEADBOARDS

Nothing defines the look and individual character of a box-spring bed more than the headboard. You can choose from various models in different sizes. All headboards are upholstered on the reverse, meaning you can place the bed anywhere in the room – even away from the wall.

SOUPLESSE MATTRESS

Souplesse pocket spring core mattresses stand out from the competition thanks to their point-elastic qualities and outstanding temperature regulation. This guarantees optimum support and pressure relief for the various body zones whilst providing the perfect bed climate.

SCANDINAVIAN

Zones:	• Seven zones, perfect adaptation to body shape, precise adjustment.
Pocket springs:	• Fatigue-proof, tempered springs. • Seven turns and a range of wire thicknesses. • Barrel-shaped, sewn into fabric pockets.
Foam:	• Open-pore Coonex foam with natural components.
Ventilation:	• Maximum ventilation in mattress core. • Additional lateral ventilation through side strips.

COMPLEMENTARY FURNITURE

The complementary furniture line by Eos completes the box-spring range. Every piece of complementary furniture can be perfectly matched to your bed using the appropriate fabric covers.

Bedside dresser M
with hard-wearing glass top.

Bedside dresser L
with hard-wearing glass top.

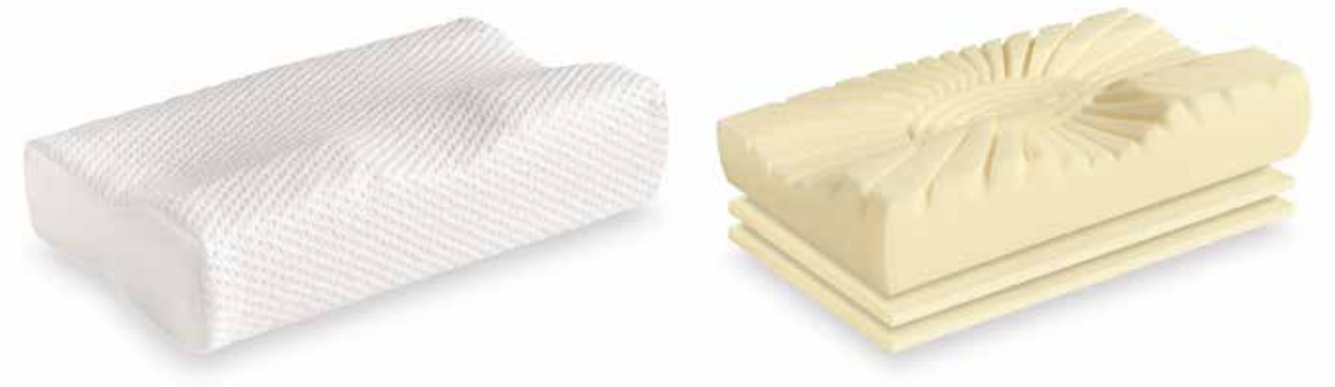

Bed rest in various sizes.

Foot rest in various widths.

NECK PILLOWS

An individual sleep system set-up needs a suitable neck pillow. The pillow boasts a sophisticated ergonomic design. The pillow core is made from a snug, point-elastic and breathable memory foam. The pillow design with ergonomic neck hollow and the material properties ensure the gentle distribution of pressure. The head, neck and shoulder sections are noticeably relieved of pressure both when lying on one's back or on one's side.

Further benefits.

- Pleasantly snug thanks to innovative 3D cutting technology.
- The viscoelastic memory foam core is exceptionally skin-friendly and breathable.
- The pillow height can be adjusted thanks to two 1.5 cm interlayers.
- The pillow cover is easy to remove and is machine washable up to 60 °C.
- Replacement covers available individually.

UPHOLSTERY COVERS

An Eos box-spring bed doesn't just feature outstanding material qualities – it also looks great. It boasts high-quality and hard-wearing upholstery covers.

Customer's own fabrics allow for unique customisation.

The extensive Eos upholstery fabric collection provides a myriad of design and combination options. As well as this, other suitable fabrics supplied by the customer can be used for upholstery. This means that giving your box-spring bed an even more unique look is no problem at all.

WARRANTY

By choosing Philrouge products you are choosing first-class quality. Selected raw materials and meticulous workmanship combined with regular quality checks ensure that you will enjoy many years of stability, function and comfort from your product. We guarantee the highest Swiss quality and provide a 10-year pro-rata warranty.

All materials conform to Oeko-Tex 100 class 1.
Subject to technical modifications.
